A COMMITMENT TO SAFETY AND RELIABILITY

Professional Wireline Rentals provides the best equipment on the market today for wireline operations.

All pressure equipment is milled, not welded, and built to API certifications by ISO certified manufacturers with complete materials traceability. Not only do these high standards ensure the safety of personnel but also reliable equipment that will provide the quickest operational turnaround time.

Professional Wireline Rentals is on call 24 hours a day and with their own transport will deliver on time to your site.

Swivel Services

While providing the latest in engineering technology, PWR swivels offer more torque with greater hook load than any power swivel on the market. In addition, the fully hydraulic design with no gears eliminates gear failure.

Another advantage of a PWR swivel is that it hangs straight in the block which minimizes thread damage on cross over subs and work strings - saving time both during rig up and when making a connection.

The Venturetech power swivel, amazingly simple and user friendly, is not only reliable, but powerful. The new Cummins 4 and 6 cylinder engines, with emergency shutdown, are on an enclosed offshore skid which meets EPA specifications for offshore use.

PWR offers both trailer mounted units and skid mounted units for onshore and offshore applications.

SPECIFICATIONS:

XK-90

Max Hydraulic Pressure	3,500 PSI
Torque at Max Pressure	5,000 FT-LBS
Max Speed	155 RPM
Max Static Load Rating	90 Tons
Max Circulating Pressure	5,000 PSI
100 PRM Load Rate	56 Tons
Saver Sub Connection	2 7/8 IF PIN

XK-150

Max Hydraulic Pressure	5,000 PSI
Torque at Max Pressure	9,700 FT-LBS
Max Speed	160 RPM
Max Static Load Rating	150 Tons
Max Circulating Pressure	5,000 PSI
100 PRM Load Rate	94 Tons
Saver Sub Connection	3 1/2 IF PIN
